The best way to purchase photo(s) for print or digital download is to login to my site. The main page does NOT have a login button so please select any menu item and go to the bottom of that page. The Login button will be in the lower right hand corner. If this is your first time here you will be prompted to create an account. A favorites folder will be created at the same time called **My Selection**.

You are able to manage your favorites folder by adding/deleting folder(s) and adding/deleting photo(s). **Word of caution**, when you select a collection of photos always double check that favorites folder is still the one you selected before adding photo(s). When you move from one collection to another the favorites will revert back to the main folder each time. So if using a favorites folder other than the main one reselect that folder before adding additional photo(s).

Here is an example.

Adding photo(s) to your favorites is done by clicking the heart icon in the upper left hand corner of each photo. Note, if you don't see that heart icon the photo can **NOT** be added. To review the photo(s) added click on **Favorites** in the upper left hand corner. These folders are used to communicate with me the photo(s) you want the logo removed and convert to print/downloadable quality. When ready email me the favorites name and I will convert those photo(s). I will create a special link with the price list allowing you to generate an order for any product listed below. Once you complete the order I will get a notification and review it one last time. I will notify you of the status. If good the order will be submitted to the printer otherwise I will contact you to resolve any issues.

This is optional, when done try logging out. The Logout button is in the lower right hand corner.

Listed below are the different print options available on my web site. For .JPG(s) download you will need to contact me.

- **Seasonal Gifts**
